Background
Menlo College recognizes that the performance of certain job responsibilities may be enhanced by or may require the use of a cellular (cell) phone, smartphone, tablet or another mobile computing device, hereafter referred to collectively as cell phones, unless indicated (see definitions below). The IRS considers these devices to be "listed property." As such, IRS regulations (IRS Section 274(d)4) require detailed record keeping including (a) the amount of the expense, (b) the time and place of the call, and (c) the business purpose for the call. The IRS can declare that all undocumented use of a cell phone is personal and should be taxed as wages, even if the majority of the calls are for business purposes.

In order to comply with IRS rules regarding the taxable nature of cell phone usage by employees, as of April 1, 2011, the College will no longer provide cell phone service to individual employees. Instead, the College will begin issuing a Stipend for those employees who hold positions where the duties of that position require the use of a cell phone or mobile device. This Stipend is meant to off-set the overall costs of the mobile device ownership, not cover those costs in full. The benefits of such an approach include: 1) a call log is not required; 2) monthly reporting is not required; 3) a single phone may be used for both personal and business purposes. The Stipend is not considered taxable income to the employee.

Policy
Employees who hold positions that include the need for a mobile device (see eligibility criteria below) may receive a Stipend to compensate for business-related costs incurred when using their individually-owned cell phones. The College will not own mobile devices for the use of individual employees. All College owned phones will be for a general department (e.g. Campus Safety).

Definitions
Cell Phone – A cell phone, in this case, refers to a mobile phone up to and including features such as a keyboard or basic applications. It does not include internet connection capabilities, email access, or other “smart” features.

Smartphone – A mobile phone that does include features such as internet connection, WiFi, e-mail access, applications and a web browser.
Tablet – Mobile devices usually consisting of a large (6“+) touch screen, internet connectivity and other smart features. It does not include telephony services (though may include applications capable of making calls or writing text messages). This does not include Tablet PCs, running full versions of desktop operating systems, or laptops which can be converted to a tablet mode.

Mobile Hot-spot – a device that creates a local WiFi network the carrier’s wireless telephone network.

**Eligibility Requirements**

Employees whose job duties include the frequent need for a mobile device may receive extra compensation, in the form of a monthly Stipend, to cover business-related costs. An employee is eligible for a stipend if at least one of the following criteria is met:

- The job function of the employee requires considerable time outside of his/her assigned office or work area and it is important to the College that s/he is accessible during those times;
- The job function of the employee requires him/her to be accessible outside of scheduled or normal working hours;
- The job function of the employee requires him/her to have wireless data and internet access; and/or
- The employee is designated as a “first responder” to emergencies on campus.

For tablets and/or mobile hot-spots, there is the additional requirement that:

- The specific form factor and/or functionality of the tablet (e.g. larger screen) or mobile computing device (e.g. connectivity while commuting) is crucial to that employee’s ability to perform the needed service or job function.

An employee who occasionally requires a mobile device for business purposes is not eligible for a stipend; however, s/he may submit a record of these expenses for reimbursement.

**Stipend Plan**

If an employee meets the eligibility requirements for a mobile device, as outlined above, a Stipend may be requested using the *Mobile Device Stipend Agreement* form. The request may be made any time during the fiscal year.

Once approved, the Stipend amount will be added to the employee’s regular pay. As per IRS guidelines, any amount added for equipment or service will be identified as a non-taxable fringe benefit.

*This Stipend does not constitute an increase to base pay, and will not be included in the calculation of percentage increases to base pay due to annual raises, job upgrades, bonuses, benefits based on a percentage of salary, etc.*

The Stipend will be paid as a flat rate per month, based on the selected service(s) and usage level(s) outlined below. As a Stipend, Menlo will pay only the agreed upon amount, even if monthly costs exceed that amount. A new request form must be submitted if the Stipend amount needs to be changed because of documented business purposes.
The Stipend and equipment allowance are neither permanent nor guaranteed. The College reserves the right to remove a participant from this plan and/or cancel the plan if there is insufficient budget to meet the plan costs.

**Stipend Options**

The amount of the Stipend will be determined based on the business contact required of the employee’s position and the minutes/texts/data needed for the employee to perform his or her job responsibilities (see Oversight, Approval, & Funding section below). Cell phones and Tablets are subsidized at flat rate regardless of amount of usage. A tiered model based on the current market rates* is used for Smartphones. The current market generally requires voice, text and data when a user subscribes to a Smartphone. Each tier is defined by the upper limit of usage per month of any combination of service(s) that is for required work-related purposes.

For example,
- No more than 10% of all text messages for an average month are for work-related issues, then the “Occasional” tier would be appropriate.
- 5% of texts and 10% of minutes are for work-related purposes, the “Regular” tier would suffice

<table>

<td></td>
<td></td>
</tr>
</tbody>
</table>

The Stipend amount selected should cover all reasonable and appropriate business use, and may be comprised of one or more services each with its own usage level. The stipend amount will not exceed the monthly charge for the use of the device (eg – if a promotion causes the monthly fee to be $30 even for an “extensive” user, then the stipend will be $30).

* The Stipend rates will be evaluated, and if appropriate, adjusted annually to align to current market rates.

**Equipment Allowance**

The College will assist with paying the net purchase cost of a cell phone or mobile device up to once every 2 years. This allowance is taxable income to the employee. Employees must show a bill or purchase receipt for their mobile in order to receive this allowance. The mobile device will belong to the employee, not the College; the employee can choose a cell phone or tablet with more features and pay the difference if he/she chooses. The College will not pay for activation fees or insurance.

Directors and Budget Officers may approve as many mobile device purchases per employee as deemed appropriate as per the eligibility requirements.

Allowance amounts differ based on type of device:
- Mobile Hot-Spot: Up to $40
- Cell Phone: Up to $25
- Smartphone: Up to $150
- Tablet: Up to $200
Oversight, Approval, & Funding

Individual departments and department heads are responsible for identifying employees who hold positions that include the need for a mobile device. Each department is strongly encouraged to review whether a mobile device is necessary, and to select alternative means of communication -e.g., landlines, pagers, and mobile radios - when such alternatives would provide adequate and less costly service to the College.

The department head is responsible for overseeing employee mobile device needs and assessing each employee’s continued need of a mobile device for business purposes. The need for a Stipend should be reviewed annually, to determine if existing stipends should be continued as-is, changed, or discontinued.

Stipends are funded by the department submitting the request.

Employee Rights & Responsibilities

The employee is responsible for purchasing a mobile device and establishing a service contract with the provider of his/her choice. The contract is in the name of the employee, who is solely responsible for all payments to the service provider. The employee purchases service and equipment; determines plan choices, service levels, calling areas, service and features; and accepts termination clauses and payment terms.

Because the mobile device is owned, the employee may use the phone for both business and personal purposes, as needed. The employee may, at his or her own expense, add extra services or equipment features, as desired. If there are problems with service, the staff member is expected to work directly with the carrier for resolution. Support from Menlo’s Office of Information Technology (OIT) is limited to documentation provided for connecting a personally-owned mobile device to College-provided services, including email, calendar, and contacts.

An employee receiving a Stipend must be able to show, if requested by his/her supervisor, a copy of the monthly access plan charges and business related use to determine if the amount of College compensation is appropriate. If the employee terminates the wireless contract at any point, s/he must notify his/her supervisor within 5 business days to terminate the Stipend.

Menlo does not accept any liability for claims, charges or disputes between the service provider and the employee. Use of the mobile device in any manner contrary to local, state, or federal laws will constitute misuse, and will result in immediate termination of the Stipend.

Devices covered by this policy are used in part to conduct College business and/or to create, receive, send, or store College data and/or education records of students. As a result, information contained on devices covered by this policy are also subject to Federal and State data maintenance and protection laws (e.g., FERPA, records retention requirements), as well as all College policies, including those pertaining to data security, acceptable computing use, and email. An employee receiving a College Stipend must comply with Federal, State, and College requirements, and assist the College in providing access to information about or contained on the mobile device covered by this policy in response to requests for such data or information by third parties as required by Federal and/or State law.
Any mobile device that has data capabilities must be secured based on current College security standards including password protection and encryption. If a device with data capabilities is stolen or missing, it must be reported to the employee’s supervisor, the wireless device service provider, and to OIT as soon as possible.

Employees are expected to delete all College data from the device when their employment with the College is severed, except when required to maintain that data in compliance with a litigation hold notice.

**College-Owned Cell Phones**

The College may own and retain a limited number of cell phones for emergency, disaster recovery, and/or other business purposes, including:

- Shared department cell phone: Arrangement involving multiple individuals sharing one cell phone that does not leave the campus and is turned in by each employee at the end of his/her shift.
- On-call department cell phone: Used for business purposes only, this arrangement involves multiple individuals that take turns being on call and share one phone.

Requests for College-owned cell phones must be approved by the department’s Vice President and the Chief Information Officer, and service and equipment must be obtained through OIT. Departments requesting a College-owned phone should consider whether there are other options that might meet their needs, and must demonstrate how a College-owned cell phone is the only/best solution. All costs associated with the College-owned phone, including equipment and monthly service, will be charged back to the requesting department.

Employee use of College-owned cell phones is limited to official College business only, and no personal use of College-owned cell phones is allowed.

**Reimbursement for Business Calls**

If an employee's job duties do not meet the criteria for a mobile device, the employee is not eligible for a Stipend. Such employees may request reimbursement for the actual extra expenses of business use on their mobile devices. Reimbursement for per-minute "air time" charges for voice service is limited to the total overage charge shown on the invoice; expenses for minutes included in the plan will not be reimbursed. Similarly, reimbursements for data overages applies to the total overages shown on the invoice for that section. The individual should make personal payment to the provider, and then should submit a request for reimbursement. Reimbursement documentation should identify the business purpose.

**Cancellation**

Any Stipend agreement will be immediately cancelled if an employee receiving a cell phone Stipend terminates employment with the College. Any such Stipend will also be cancelled if an employee changes job positions. In case of a change in job positions, a new Cell Phone Stipend Agreement must be submitted to the Business Office to establish the continued business need for a cell phone.

If, prior to the end of the cell phone contract, a personal decision by the employee, employee misconduct, or misuse of the phone results in the need to end or change the cell phone contract, the
employee will bear the cost of any fees associated with that change or cancellation. EXAMPLE: The employee quits, and no longer wants to retain the current cell phone contract for personal purposes.

If, prior to the end of the cell phone contract period, a department decision (unrelated to employee misconduct) results in the need to end or change the cell phone contract, the department will bear the cost of any fees associated with that change or cancellation. The original billing statement indicating the early termination charge billed must be submitted in order to be reimbursed in these circumstances. EXAMPLE: The employee’s supervisor has changed the employee’s duties, and the Stipend is no longer needed. The employee does not want to retain the current cell phone contract for personal purposes.
